

Addressing Homelessness

WORKING TO MAKE HOMELESSNESS RARE, BRIEF, AND NON-RECURRING IN OUR COMMUNITY

Homelessness is a growing community challenge that does not have a one-size-fits-all solution. According to the 2023 Point in Time (PIT) count, the total number of people experiencing homelessness in Northern Colorado increased 11.4% from 2022. While addressing this challenge requires the engagement of a broad spectrum of community partners, Housing Catalyst offers several evidence-based solutions to support individuals and families in moving out of homelessness. The success of these efforts can be seen in PIT data like high utilization of homeless resources and decreases in veteran and chronic homelessness.

PERMANENT SUPPORTIVE HOUSING

Permanent Supportive Housing (PSH) is an innovative program that combines affordable housing with supportive services to address the needs of people experiencing chronic homelessness. PSH targets people who are experiencing homelessness, have one or more disabilities, and experience multiple barriers to housing. When PSH residents know they have a safe, long-term home, they can begin to address their mental and physical health, build independent living skills, and connect with their community.

Housing Catalyst manages two Permanent Supportive Housing communities in Fort Collins – Redtail Ponds and Mason Place.

RENTAL ASSISTANCE PROGRAMS

As the Public Housing Authority (PHA) serving Fort Collins, Wellington, and Larimer County, Housing Catalyst administers hundreds of federal housing vouchers each year. Voucher assistance expands housing opportunities for residents, stabilizing and improving the lives of individuals and families in our community.
